

## THINK OF IT!

This Pretty Matron Had Headache and Backache and Her Condition Was Serious.

### PE-RU-NA CURED

MRS. M. BRICKNER.

99 Eleventh Street, Milwaukee, Wis.  
"A short time ago I found my condition very serious. I had headaches, pains in the back, and frequent dizzy spells which grew worse every month. I tried two remedies before Peruna, and was discouraged when I took the first dose, but my courage soon returned. In less than two months my health was restored."—Mrs. M. Brickner.

The reason of so many failures to cure cases similar to the above is the fact that diseases peculiar to the female sex are not commonly recognized as being caused by catarrh.

Catarrh of one organ is exactly the same as catarrh of any other organ. What will cure catarrh of the head will also cure catarrh of the pelvic organs. Peruna cures these cases simply because it cures the catarrh.

If you have catarrh write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

## Do You Feel Chilly, Then Feverish and Ache all Over?

Feel Worn-out, Blue and Tired? Have You a Fresh Cold, With Frequent Hacking Cough? Sensation of Soreness in the Chest or Back?

Don't let your cold run into chronic bronchitis or pneumonia. The very best tonic alternative and body-builder at this time is Dr. Pierce's Golden Medical Discovery. Made without alcohol or dangerous drugs, and it contains that rare combination of roots and herbs that will ally a cough from its out, as it were, restores the circulation, assists the appetite and digestion, and consequently restores tone to the entire system. That is the reason people look happy once more after taking it—they feel like living, because their liver is active, the blood in their arteries is full of that life-giving quality—rich, red blood. The blood in turn feeds the nerves.

Nervousness and neuralgia are only the indication that the nerves are not fed on invigorating blood. This "Medical Discovery" of Dr. Pierce is nature's own restorer. It tones up the organism and stimulates its functions, furnishing the body one of its necessary constituent principles of which it is in need. This preparation is of pleasant taste, agrees perfectly with rebellious and sensitive stomachs, and is extremely effective in restoring tone and vigor to the entire system. It cures gastric troubles of the stomach and at the same time the blood-vessels are given a stimulation

## BIGGEST CODFISH ON RECORD.

Gloucester Fishermen Recently Land ed a Monster.

It will interest Maine fishermen to know that the grandfather of all codfish, the biggest one ever brought into Boston within the memory of the oldest fishermen, was lately landed at T. wharf by the fishing schooner E. A. Hooper of Gloucester. The fish weighed eighty-five pounds after being dressed, and must have weighed about 100 pounds when captured. It was almost six feet in length. The fish was taken near Halfway Rock, off Marblehead. One of the dorymen got a terrific yank on one of his lines when the big fellow took hold, and after vainly struggling with the monster to get him up from the depths the man hailed a mate to come to his aid. The two fishermen each took a long pull and then both pulled together, and this hove the cod to the surface, and he was successfully gaffed into the dory.—Bangor (Me.) Commercial.

## Hint For Travelers.

Travelers should always put a few necessary articles that will be wanted immediately on arrival in a small bag, so that they can be laid hands on at once, and the large trunks left for a convenient opportunity or in case the larger luggage should go wrong on the journey.

## Raising Foxes for Pelts.

Sealskins to the number of 3,128 were shipped from Alaska last season. An industry pursued incidentally with that of sealing on the Pribilof islands is that of raising the blue fox for his pelt. These animals, under the system in use, are fed and cared for as if domesticated.

## Novel of 106 Volumes.

The longest novel which has ever been published is the "Story of the Eight Dogs." It is written in Japanese and is published in 106 volumes. The novel contains several hundred characters (not counting the dogs), and they are all dead by the time the last chapter is reached.

Every housekeeper should know that if they will buy Defiance Cold Water Starch for laundry use they will save not only time, because it never sticks to the iron, but because each package contains 16 oz.—one full pound—while all other Cold Water Starches are put up in 3 1/2-pound packages, and the price is the same, 10 cents. Then again because Defiance Starch is free from all injurious chemicals. If your grocer tries to sell you a 12-oz. package it is because he has a stock on hand which he wishes to dispose of before he puts in Defiance. He knows that Defiance Starch has printed on every package in large letters and figures "16 oz." Demand Defiance and save much time and money and the annoyance of the iron sticking. Defiance never sticks.

The best help to ourselves is the assistance tendered deserving.

which throws off a cold. One very good reason why it restores the health of run-down, pale and emaciated people is because it first throws out the poisons from the liver and kidneys. It then begins its reconstructive work in building up flesh and making good, rich, red blood.

"I have been a sufferer from indigestion for some thirty years, at times," writes Mr. S. W. Mullens, of Circleville, W. Va., "and have used medicine from several of our best physicians, which gave me only a little temporary relief. They said I could never be cured. Last winter I was stricken with the worst spell that I ever had. I suffered with such severe pains in the pit of my stomach that I could neither work nor sleep, and my weight went down from one hundred and ninety-five pounds to one hundred and sixty pounds in about two months' time. I then concluded that I would try Doctor Pierce's Golden Medical Discovery. By the time the first bottle was gone, I felt some relief from my severe suffering so continued until I had used four bottles of Golden Medical Discovery. I am truly thankful for the benefit which I have received from your medicine, and can cordially recommend it to others."

**It Stands Alone** not only in respect to its ingredients, but also as the only medicine for stomach, liver and blood disorders, which absolutely CONTAIN NO ALCOHOL.

**It Stands Alone** as the best alternative medicine, the makers of which take their patients fully into their confidence and tell them exactly what they are taking. This Dr. Pierce can afford to do, because his "GOLDEN MEDICAL DISCOVERY" is made of such ingredients and after a working formula that has hundreds of thousands of cures to its credit, placing its merits above criticism.

**It Stands Alone** as Nature's cure for almost all chronic diseases because the earth supplies the ingredients, which are as follows:

Golden Seal (*Hydrastis Canadensis*). Queen's root (*Silene Sibthorpii*). Stone root (*Collinsonia Canadensis*). Cherry bark (*Prunus Virginiana*). Bloodroot (*Sanguinaria Canadensis*). Mandrake (*Podophyllum Peltatum*).  
Constipation although a little ill, begins big ones if neglected. Dr. Pierce's Pleasant Pellets cures constipation.

## QUARREL AMONG THEMSELVES.

No Attention Paid to Threat to go into Effect May 29.

Chicago, May 30.—While numerous small riots were in progress both in the downtown streets and in the lumber districts, the leaders of the teamsters' strike and the officials of the building trades were engaged in quarrels of their own.

The action of the building trades in withdrawing from the teamsters their financial and moral support angered the teamsters, and they lost no time in calling upon the representatives of the building trades and demanding to know what they meant by going back on the teamsters in the thick of the fight. It was made plain to the teamsters that in the opinion of the trades they had overstepped their jurisdiction in causing members of their union to do constructive work. The particular cause of complaint was that teamsters employed in handling safes and vaults had placed them in buildings. This part of the work the building trades contended belongs to them. President Shea of the Teamsters' union, declared that he would order out every safe mover and machinery rigger in the city and stop work on all buildings where the members of the building trades are employed. No attention was paid to this threat by the building trades representatives and finally a committee, composed of Michael Casey of San Francisco; John Sheridan, of Chicago, and Ed Gould of New York, all members of the executive council of the teamsters, was appointed to confer with the building trades over the matter of jurisdiction. No time was specified for the meeting.

Several new efforts were made during the day to settle the strike, but none of them amounted to anything. The Chicago Team Owners' Association made another effort to induce the teamsters to arbitrate the question of delivering goods to boycotted houses. The Chicago Masons and Builders' Association offered its services to arbitrate all things connected with the strike.

## LIVES WITH BROKEN NECK.

Muskogee Boy Walks But Cannot Direct His Steps.

Muskogee, I. T., May 30.—Although he broke his neck, Ray Vallinette, 13 years old, of this city, still lives to tell the story of the accident. The most remarkable feature of the case is his physician says he will recover. The boy was thrown from his seat in a runaway Thursday, striking his neck on the wagonbox and dislocating it. He was taken to a doctor's office, where he became unconscious. The neck was reset and the boy is now able to walk and talk, can see and discern various objects, but cannot read. He has not lost control of his limbs, but cannot go in the direction he desires. Aside from soreness in his neck he does not complain of any illness. Physicians consider this case remarkable, as in nearly every instance dislocation of the neck results in instant death.

## NAME OF STEAMER UNKNOWN.

Report That Russians Sank American Vessel is Confirmed.

Washington, May 30.—Confirmation has been received here from Shanghai of the press report that the Russian warships have sunk an unknown American merchant ship off the Chinese coast. Heavy gun fire is plainly heard to the northward.

Tokio.—The name and destination of the American steamer which Vice Admiral Rojestvensky is reported to have sunk off Formosa, about May 21, is unknown here. Details concerning the sinking of the vessel are expected to be made known when the crew of the steamer reaches Japan. Although nothing is known here about the case it is expected in official circles that Vice Admiral Rojestvensky will claim that the vessel was cruising.

St. Petersburg.—Nothing is known at the admiralty of the reported sinking of an unknown American steamer off Formosa by Vice Admiral Rojestvensky. It is recognized at the admiralty as quite possible that Rojestvensky may have been compelled by military necessity to destroy a neutral, if he feared that to allow it to proceed and report the whereabouts and direction of the Russian fleet would endanger his strategic plan he had no other alternative except to take off the crew and sink the ship. Such an incident is unfortunate, but every naval officer must admit that the risk in such a crisis is too great to take any chances. If the ship was unjustifiably sunk from the standpoint of international law Russia, of course, will have to foot the bill; but any cost is cheap if it furthered Rojestvensky's mission.

Eminent Statesman Dying. Madrid, May 31.—Don Sanfrancisco Silva, the eminent statesman and former Spanish premier, is dying.

## Views of Mars' Canals.

Bloomington, Ind., May 31.—Word was received here that Professor C. O. Lampland, a former student in the astronomy department of Indiana university, but now connected with the Lowell university at Flagstaff, A. T., has photographed the canals in the planet Mars.

## Native Scouts to Coast.

Manila, May 27.—Among the troops being sent to pacify the west coast of Samar are the native scouts who were at the St. Louis exposition.

## Save the Babies.

**INFANT MORTALITY** is something frightful. We can hardly realize that of all the children born in civilized countries, twenty-two per cent., or nearly one-quarter, die before they reach one year; thirty-seven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

## Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. A. F. Peeler, of St. Louis, Mo., says: "I have prescribed your Castoria in many cases and have always found it an efficient and speedy remedy."

Dr. E. Down, of Philadelphia, Pa., says: "I have prescribed your Castoria in my practice for many years with great satisfaction to myself and benefit to my patients."

Dr. J. E. Waggoner, of Chicago, Ill., says: "I can most heartily recommend your Castoria to the public as a remedy for children's complaints. I have tried it and found it of great value."

Dr. Edward Parrish, of Brooklyn, N. Y., says: "I have used your Castoria in my own household with good results, and have advised several patients to use it for its mild laxative effect and freedom from harm."

Dr. J. R. Elliott, of New York City, says: "Having during the past six years prescribed your Castoria for infantile stomach disorders, I most heartily commend its use. The formula contains nothing deleterious to the most delicate of children."

Dr. C. G. Sprague, of Omaha, Neb., says: "Your Castoria is an ideal medicine for children, and I frequently prescribe it. While I do not advocate the indiscriminate use of proprietary medicines, yet Castoria is an exception for conditions which arise in the care of children."

Dr. J. A. Parker, of Kansas City, Mo., says: "Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a sure and reliable medicine for infants and children. In fact, it is the universal household remedy for infantile ailments."

Dr. H. F. Merrill, of Augusta, Me., says: "Castoria is one of the very finest and most remarkable remedies for infants and children. In my opinion your Castoria has saved thousands from an early grave. I can furnish hundreds of testimonials from this locality as to its efficiency and merits."

Dr. Norman M. Geer, of Cleveland, Ohio, says: "During the last twelve years I have frequently recommended your Castoria as one of the best preparations of the kind, being safe in the hands of parents and very effective in relieving children's disorders, while the ease with which such a pleasant preparation can be administered is a great advantage."

Dr. F. H. Kyle, of St. Paul, Minn., says: "It affords me pleasure to add my name to the long list of those who have used and now endorse your Castoria. The fact of the ingredients being known through the printing of the formula on the wrapper is one good and sufficient reason for the recommendation of any physician. I know of its good qualities and recommend it cheerfully."
